## Simplifies daily school life for staff, students and parents.

EduLink One keeps everything in one place. It's designed to streamline MIS data into a platform that's functional on any device. It combines everything you need to support a well-managed and connected school environment, from administration and planning to communicating with your students and their parents.

We reduce workload, cost, and complexity of systems to help you focus on what's important: engaging with and supporting your students.

“EduLink One is so much more than a parent portal. It has vastly improved our communications with students and parents, and revolutionised our staff's normal way of working – increasing efficiency and impact. We cannot imagine life without it now!”

Daryl Bond, Assistant Headteacher, Guildford County School

## Our Features

EduLink One's functionality covers everything from registers to parents' evenings – all that's needed to support your school whilst engaging with parents and students.

Whether you are open as usual or dealing with isolating staff or students, EduLink One supports both in-class and remote learning.

What's more, the features are fully customisable to meet your school's requirements.

With a user-friendly app or web interface, EduLink One ensures data is accurate and up to date through its live link and write-back to your management information system (MIS).

Read how EduLink One has been implemented in our case studies on pages 8 & 9.

100% of schools would recommend our products\*

## Key Features

- ✓ Takes registers
- ✓ Email, SMS and push messages
- ✓ Create seating plans
- ✓ Parents' evening system with video calls
- ✓ Manage behaviour and achievement
- ✓ Data collection, admissions and forms
- ✓ Homework setting and tracking
- ✓ Update marksheets and view assessments
- ✓ Manage extra-curricular clubs
- ✓ Attendance and absence management
- ✓ View and share school reports
- ✓ Book rooms and resources
- ✓ Exam timetables and results
- ✓ Class dashboard and analytics
- ✓ View cashless catering and payment balances

# Explore Edulink One's Functions

## Engagement Features

### Messaging system

Improve parental and student engagement with Edulink One's integrated 2-way messaging and notification system. It's highly customisable to meet your needs, allowing you to set it up in the way that works best for your school.

Edulink One allows you to communicate via app notifications, emails or SMS messages. In just a couple of clicks you can send a message to just a class or to the whole school. You can also choose to save it to the SIMS communications log. Dependent on school policy, enable replies for parents/students and allow them to message staff directly.

Notification options make school admin run smoothly - trigger automatic messages for absences, detentions, form notifications and achievement.

Edulink One integrates seamlessly with your chosen email and SMS providers as well as GOV.UK Notify, which allows schools 10k free SMS messages per annum.

### Parents' Evening

Make organising a parents' evening hassle-free with Edulink One. Flexible settings allow you to quickly set up events to suit your requirements. Parents can book online via the app or you can manage bookings internally. Both staff and parents can print the event timetable and you can easily measure engagement levels by tracking parental attendance.

Choose from a face to face event or online video call, with back up telephone numbers. Simply tick a box to turn your event into an online one.

“ We were so grateful Edulink One added this feature (virtual parents' evening) without extra charge. Single best bit of software our school has ever bought into. ”

Rich Atterton, Assistant Headteacher,  
The Marlborough Science Academy

### School Reports & Documents

Improve parental engagement and improve staff efficiency by sharing school reports and key documents in your MIS with parents and staff in Edulink One. You'll save £££ on printing and postage costs too. View historical reports and documents and see who's accessed what so you can follow up if necessary.

### Forms

Never lose a permission slip again! Replace collecting paper forms and permission slips with Edulink One's Forms system and save the huge admin headache.

### Catering

Edulink One integrates with your school's cashless catering system. It allows parents, students and staff to view information about their account balances without having to log into a separate system.

### Payments

Parents can easily manage their school payments directly in Edulink One via integration with your school's third party payment system. We currently integrate with Cunninghams iPayimpact and sQuid.

## Teaching & Learning Features

### Registers & Absence Management

Take registers remotely on any device with internet access, solving the problems of taking PE registers or using Chromebooks and iPads. Parents can easily notify absences using the app allowing you to quickly review absences, contact parents and spot trends.

### Seating Plans

EduLink One's classroom seating plan tool makes designing your class layout and locating students a doddle. With an intuitive drag and drop interface, it only takes minutes to configure each classroom. Simply add your students who are labelled with key information and performance data.

### Timetables, Calendar & Noticeboard

No more excuses for losing a timetable! Now and next lessons are always shown on the home screen for quick reference. Share staff calendars, add a school calendar and post your communications in the noticeboard area.

### Homework

Set and record homework so that students, parents and staff can easily track what work is due. See when it has been completed. EduLink One also makes homework assignments in Google Classroom and Microsoft Teams visible to parents.

### Achievement & Behaviour

Reward achievements to recognise and motivate your students, or employ behaviour points and detentions where necessary with a system you can tailor to your school's requirements. There's also an On Report function, allowing you to ditch paper report cards.

### A+ Marksheets & Assessments

Make entering students' grades into marksheets a quick job with EduLink One. Save time and hassle with our comment bank, leaving you time to focus on more important jobs. You can also share assessment data which can help improve parental engagement and end results.

### Exams

Take the hassle out of managing exam entries. Share timetables and publish results online via the app on a specific day and time.

### Child Protection & Call Outs

A simple way for schools to make and manage safeguarding referrals and get immediate support in your classroom by calling for assistance.

### Resource Access

Enables schools to link to additional resources, such as Google Classroom, BBC Bitesize, the school website etc, within the app.

### Class Dashboard

View your class's key statistics on characteristics, achievement and attendance. Helpful for identifying issues, planning seating and benchmarking.

“ The resource booking function is a godsend for us. We used to manage all our booking via a manual system. Now we'd pay for EduLink One just for this functionality - and it wasn't even the reason we chose it! ”

Pete Williams, ICT Network Manager,  
The Commonwealth School

## Administration Features

### Data Collection and Admissions

Collect and update pupil and parent data online, including new admissions and write back to your MIS in a single click. Save hours of admin time and reams of paper as well as having more accurate data. What's not to love?

### Clubs

Take the hassle out of extra-curricular club management. Set up clubs, select your cohorts and allow parents and students to book, saving administration hassle. Register attendance, locate students easily, view student data and message parents and students with important information. Plus download club attendance reports to help track Pupil Premium spend.

### Room & Resource booking

No more wasting time trying to find available rooms and equipment. Allow staff to reserve rooms and resources in just a few simple clicks, saving time and stress. EduLink One is linked to the timetable so updates automatically and sends notifications of changes.

### Analytics

Instantly see a visual summary of club attendance, homework setting and completion, call-outs and document messaging statistics. Help to spot trends, make improvements and address issues early.

### Student Information & SEND

Fast access to all a student's data including SEND strategies. View everything from assessment data to behaviour records, medical information to past reports.

## Supporting schools

Edulink One's suite of functions supports teachers and admin staff in their daily activities freeing up valuable time as well as improving engagement, which is vital for student success.

Here's how some schools have transformed their school with Edulink One.

### Guildford County School

"Staff loved Edulink One from day one. It's revolutionised our parent portal and how we use data. It has made taking registers simple, particularly for PE teachers and staff that don't teach in their form's classroom. Homework setting has been standardised and managing clubs now has a proper solution. The analytics function is great for leaders and heads of years too.

"Being able to access student data anytime along with their reports, anywhere on mobile devices is so powerful and has increased the efficiency of the conversations staff can have. The greatest but unexpected benefit has been the huge time saving for staff. It's had such a positive effect - making them more effective and efficient and helping them upskill. We can't imagine life without it now."

Daryl Bond, Assistant Headteacher

### Queen's Park High School

"Staff used to complain at how clunky and slow SIMS was, but this gives you access to the same data but in a much more modern and user-friendly way.

"Edulink One has allowed us to think of new ways of working and actually compliments the processes instead of being cumbersome and in the way. The fact that teachers can see so much from their seating plans and registers without having to search is a real winner.

"Edulink One really is a fantastic asset. It's simple to use and ties so many activities/tasks from school life together in one place. The app has helped improve communication with parents and we've seen nothing but benefits from implementing it."

Dave Helsby, Support Operations Manager

### The Commonweal School

"The benefits... firstly, the school has made cost savings of just under £5000 to date as it has retired two existing systems to do remote registers and parents evening.

"Secondly, having one login for almost all the school systems has simplified life for the school's staff, parents and students. Setup was nice and easy from a technical point of view. The support team were brilliant.

"What matters most is that school systems work well and are easy to use. Edulink One is such a great product, it sells itself. Parental engagement has been impressive - almost 900 parents have logged in since the launch and this has probably been the most successful element. The low price is a bonus!"

Nick Bartlett, Assistant Headteacher  
for Teaching and Learning

“ What we really liked was that within one unified platform we had a single solution that would allow us to communicate, engage and share data with teachers, parents and students. ”

Network Manager,  
UCTC

“ I just wanted to acknowledge the number of great improvements you’ve made to Edulink One over the past year. I think it’s a real testament to your development team how quickly new ideas and additional features have been rolled out, and how wonderfully you’ve been able to respond to the additional challenges that schools have had put on them that have then been passed to you. A big thank you to all of you. ”

Vicky McKay, Network Manager,  
King David High School

## What makes us different?

Edulink One brings together multiple software functions into one easy to use app, with one login.

You can use as little or as much of Edulink One’s functionality as you like. Run it alongside existing software, or retire multiple existing systems and save £000’s.

What’s more, upgrades and UK based support are all included as standard. Long tie-ins or notice periods are not our style either. We don’t like to trap customers into using us.

Visit our Edulink One online demo at  
[www.overnetdata.com](http://www.overnetdata.com)

## Key Benefits

- ✓ Reduced staff administrative workload for teachers, senior leadership team (SLT) and support staff
- ✓ A user-friendly MIS interface with write-back, allowing staff and students to work anytime, anywhere including on iPads and Chromebooks
- ✓ One single login for all functions
- ✓ Easy co-ordination of onsite and online parents’ evenings with video call option
- ✓ Centralised management of resource and room bookings
- ✓ Convenient access to all student data including assessments, attendance, reports, achievements and behaviour
- ✓ Retire multiple existing systems, potentially saving thousands of pounds
- ✓ Improved student and parental engagement through 2-way messaging (email, SMS and push notifications) and shared student information
- ✓ Tailor the installation to your school’s individual requirements, allowing you to use alternative systems alongside Edulink One
- ✓ One place for setting and managing homework, allowing it to be monitored effectively
- ✓ Reduce printing, postage and SMS costs
- ✓ Discover more efficient ways of working

### Unlimited upgrades

Receive all new functionality upgrades for no additional fee.

### Unlimited devices

App and desktop versions allow access to Edulink One on any device.

### Unlimited support

Our UK-based email and phone support is included at no additional cost, alongside our 24/7 online Knowledge Hub.

# Our Pricing

There are no hidden setup or support costs with Edulink One. The price you pay includes everything, including support, upgrades and new functionality we add to the software. You choose which elements you want to roll out for your school and how/when you roll them out.

Visit our website for our latest prices.
